MEMORANDUM

TO: Authority Members

FROM: Lori G. Levin, Executive Director

DATE: May 17, 2006

RE: **Informational Materials**

The following items are being provided for informational purposes pursuant to discussions held at the May 9, 2006 Budget Committee / Justice Assistance Grants planning meeting:

1. Justice Assistance Grants Matching Funds and Period of Project Support memo
2. Anti-Drug Abuse Act Past Priorities and Program Examples
3. The National Criminal Justice Association Survey of State Administering Agencies - Justice Assistance Grants Match Requirements
4. Illinois Coverage by Metropolitan Enforcement Groups and Task Forces for State Fiscal Year 2006
5. Federal Fiscal Year 2003 and 2004 Attachment A's for the Anti-Drug Abuse Act and the Local Law Enforcement Block Grants programs
6. Crime and Criminal Justice Trends – PowerPoint presentation delivered by the Authority's Research and Analysis Department at the May 9, 2006 Budget Committee / Justice Assistance Grants planning meeting

MEMORANDUM

TO: Authority Members

FROM: Lori G. Levin, Executive Director

DATE: May 17, 2006

RE: **Justice Assistance Grants (JAG) Matching Funds & Period of Project Support**

In keeping with the Bureau of Justice Assistance's policy to 1) promote the leveraging of state, local, and private resources and 2) to emphasize the need for early sustainment planning by grant recipients, staff recommends maintaining the original matching fund requirements as set forth under the Anti-Drug Abuse Act (ADAA) program, which JAG effectively replaces. Those matching fund requirements are as follows:

At least 25 percent of the cost of a program or project funded with a formula grant must be paid in cash with nonfederal funds. These "match" funds must be in addition to funds that would otherwise be made available by the recipient. Match funds are generally provided on a project-by-project basis, although BJA may approve a statewide match option.

Requiring matching funds would serve two purposes. First, matching funds would promote greater accountability among grant recipients, as they would have a vested stake in the effectiveness of the grant-funded program. Secondly, matching funds would allow the federal award to the Authority to be stretched further and be distributed among more recipients than if grant-funded programs relied entirely on JAG funds to cover their costs.

Staff also recommends continuing the policy, as required under the ADAA program, that projects in the aggregate may be funded for a maximum of 4 years (48 months). Programs previously funded under ADAA would be eligible to begin new four-year funding periods. Grants awarded to state and local governments to participate in multi-jurisdictional drug or gang task forces and victim assistance programs are excluded from this restriction.

MEMORANDUM

TO: Authority Members

FROM: Eugene E. Murphy, Jr., Budget Committee Chair

DATE: April 24, 2006

RE: **Anti-Drug Abuse Act (ADAA) Past Priorities and Program Examples**

Past Priorities

At the Illinois Criminal Justice Information Authority Criminal Justice Planning Assembly in 2000, several current and/or future resource gaps and needs in the areas of drugs and violent crime; juvenile crime; offender services; victims of violent crime; community capacity building; information systems and technology were identified. These resource gaps lead to the establishment of seven priorities, which are consistent with and build on the National Drug Control Strategy (NDCS), as well as the JAG purpose areas. These priorities have been used in the establishment of funding priorities in our ADAA applications for the past several years, and for the FFY05 and 06 JAG applications. Once this committee has established new priorities, those JAG application priorities will be revised to reflect any changes. Examples of programs falling within each priority area have been provided.

Priority 1: Support prevention programs that help youth recognize risks associated with violent crime and drug use and target youth to reduce their use of violence, illicit drugs, alcohol, and tobacco products. (NDCS priority #1 & JAG purpose area #3 - *Prevention and Education Programs*).

Program Example: Juvenile Probation Program, the Cook County Probation Program developed a community-based team of clinicians, specially trained in the application of Multi-Systemic Therapy, to serve minors returning from court-ordered residential treatment programs. Team members attended a four-day training. Multidisciplinary team meetings continue to be held which include the courts, DCFS, the Multi-Systemic team, probation officers, and family, so that all aspects of the youths' lives are considered.

Priority 2: Support programs statewide that target prevention and early intervention for juveniles, with particular emphasis on the principals of balanced and restorative justice. (NDCS priority #1 & JAG purpose area #3 - *Prevention and Education Programs*).

Program Example: Juvenile Probation Centers Program has established a system of supervision and programming within the juvenile criminal justice system for a collaborative initiative, which seeks to address truancy and other at-risk behaviors, develop life-skills, build healthy family interaction and involvement, and provide after school and summer activities and services—all toward the goal of delinquency intervention and prevention.

Priority 3: Support programs that enhance treatment effectiveness, quality, and services so that those who need treatment can receive it. (NDCS priority #2 & JAG purpose area #5 - *Drug Treatment Programs*).

Program Example: Jail-based Mental Health Services, the primary goal of Jail Data Link Project is to deploy the technological and clinical services in three (3) geographically diverse jail settings according to the Department of Human Services, Division of Mental Health regional map for Illinois. The county adult detention facilities in each of the locations have a high enough number of jail admissions and provide geographic uniqueness to serve as pilot expansion sites. They also have established relationships with DHS funded mental providers who can provide community-based resources for detainees with mental illness that are identified through Data Link.

Priority 4: Support research that identifies what works in drug treatment and the prevention of drug use, violent crime, and their consequences. (NDCS priority #'s 1 & 2, and JAG purpose area #3 - *Prevention and Education Programs* & #5 - *Drug Treatment Programs*).

Program Example: The Drug and Violent Crime Control Strategy Impact Program has the goal of improving the effectiveness of drug and violent crime control efforts in Illinois by providing policy and decision makers with better information on the nature and extent of the problem, as well as information about the types of programs or factors contributing to the success of crime control initiatives. It supports a central clearinghouse function for drug and violent crime related data and information, funds formal evaluations of drug and violent crime control efforts, and initiates other research in support of Illinois criminal justice planning and program development. Funding has supported evaluation projects conducted by the Authority and external evaluators.

Priority 5: Support programs that promote the efficiency and effectiveness of the criminal justice system. (NDCS priority #3, and JAG purpose area #2 -

Prosecution and Court Programs & #4 - Corrections and Community Corrections Programs.)

Program Example: The Community-based Transitional Services for Female Offenders Program strategy is to provide support services on an individualized basis, rather than funding a pre-packaged or general program. Gender-responsive case management services were made available to eligible women in the program. Services will provide a continuum of programming from pre-release services in the facility through post-release programming in the community linking women to available service networks and community-based programs.

- Priority 6: Support efforts to implement an integrated justice system in Illinois that includes all components of the criminal justice system and includes every jurisdiction within the state. (NDCS priority #3, and JAG purpose area #4 - *Corrections and Community Corrections Programs & #6 - Planning, Evaluation, and Technology Improvement Programs.*)

Program Example: The Criminal History Record Improvement program through which the Illinois State Police operates and maintains an Automated Fingerprint Identification System (AFIS), which is the biometric identification component of the Illinois Criminal History Record Information system as a whole. The term *eAFIS* (*enhanced* Automated Fingerprint Identification System) is a conceptual construct that describes and represents the next generation of enhancement for the Illinois State Police AFIS. *eAFIS* is a marriage of enhanced platform and functionality.

- Priority 7: Support efforts with law enforcement, prosecution, and probation to combat, disrupt, and test drug users. (NDCS priority #3, and JAG purpose area #1 - *Law Enforcement Programs & #2 - Prosecution and Court Programs.*)

Program Example: Multi-jurisdictional narcotics units operate to improve the quality, efficiency, and effectiveness of drug law enforcement, thereby making communities safer, and ensuring a greater degree of safety for undercover officers. Multi-jurisdictional units focus on the identification and apprehension of drug traffickers and on eliminating drug trafficking networks, and work together with law enforcement agencies at the local, state and federal level. Currently, there are a total of 20 multi-jurisdictional narcotic units, comprised of ten MEGs and 10 task forces funded by the Authority.

Program Example: Multi-jurisdictional drug prosecution units provide prosecutorial support to local metropolitan enforcement groups (MEGs) and drug task forces to develop legally sound drug cases, prosecute drug offenders, and conduct forfeiture proceedings. Programs in eight county state's attorney's offices, and the Office of the State's

Attorneys Appellate Prosecutor receive funding for drug prosecution attorneys to support MEGs and task forces.

Program Example: Local Law Enforcement Officer Safety Initiatives have provided funding for local law enforcement agencies for basic law enforcement equipment to enhance officer safety and improve operational effectiveness. These grant programs funded the acquisition of law enforcement vehicles, radios, MDC/in-car computers, and in-car video systems for local law enforcement agencies in Illinois.

Crime and Criminal Justice Trends

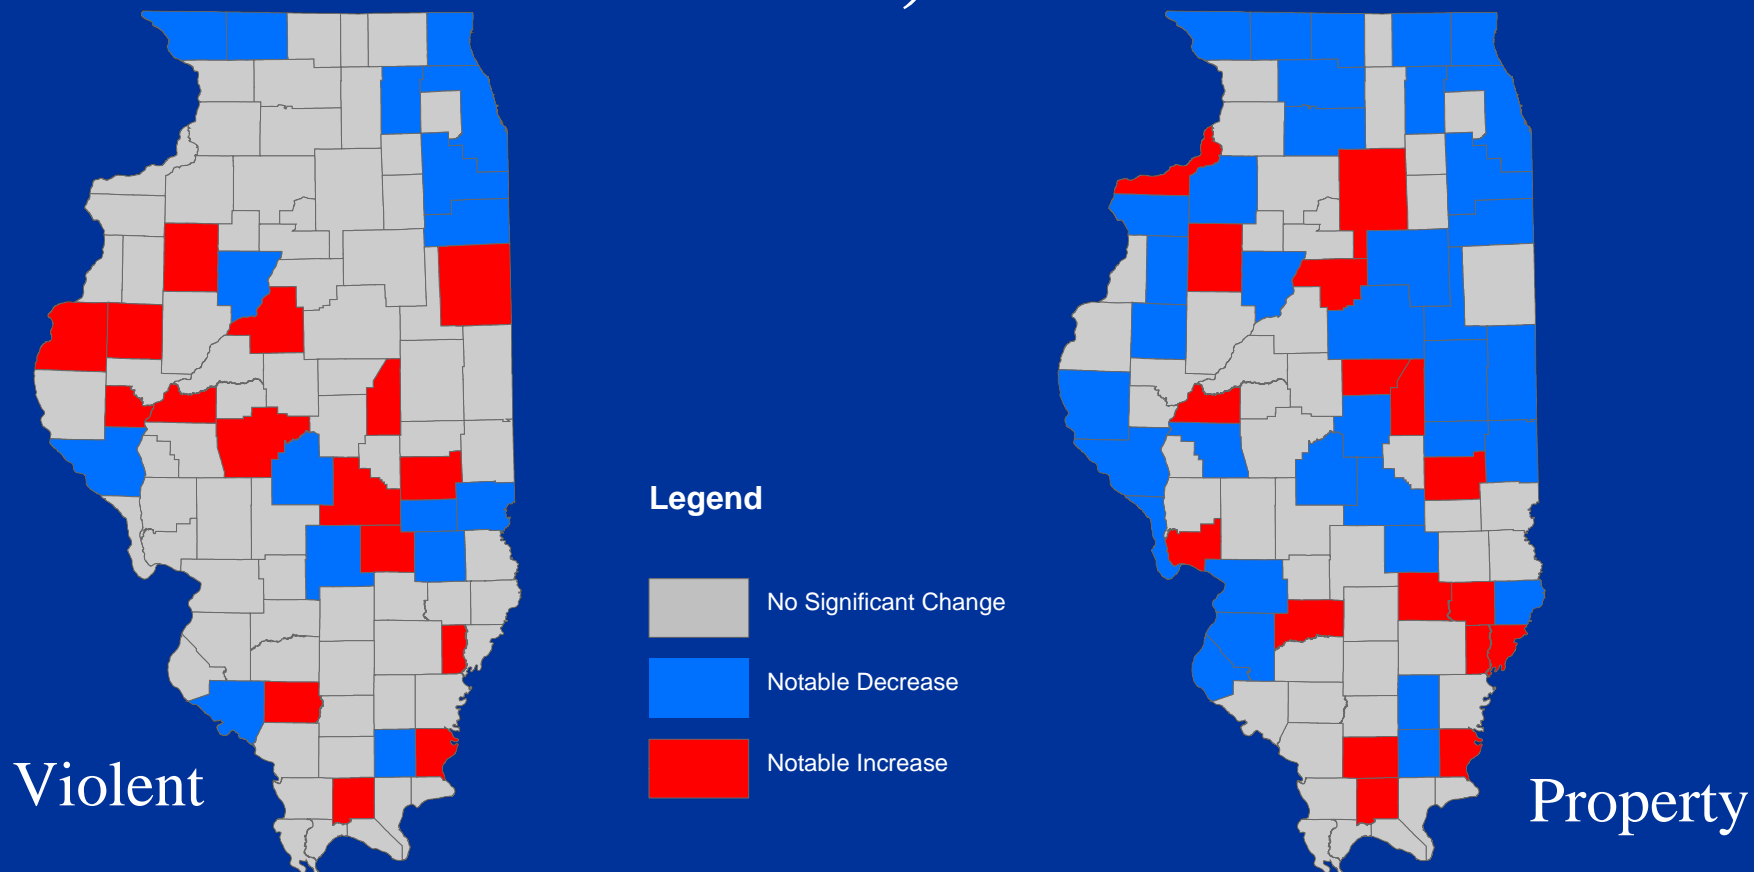

**Presented to the Justice Assistance Grant
Planning Committee, May 9, 2006**

Trends in Statewide Index Offense Rates

- Crime continues a 13-year decline in Illinois;
- Although Cook County accounts for 42% of the statewide population, in 2004, it continued to account for the majority (54%) of reported crime in the state.

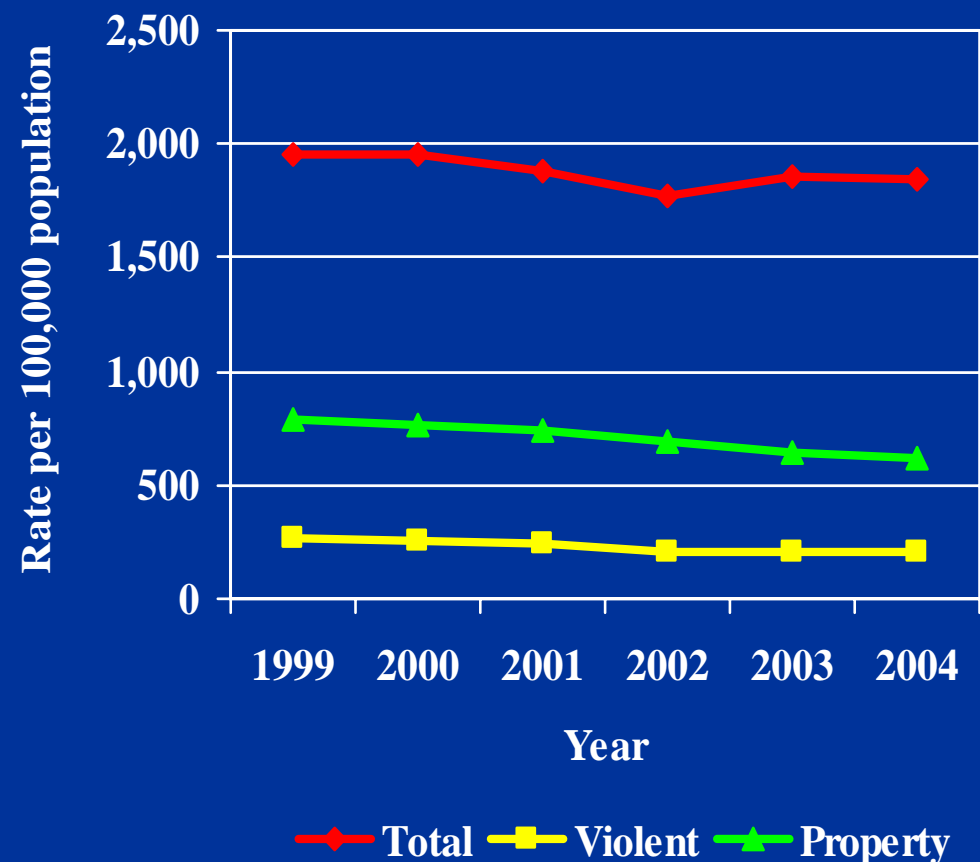

Trends in Violent and Property Index Offense Rates, 1999-2004

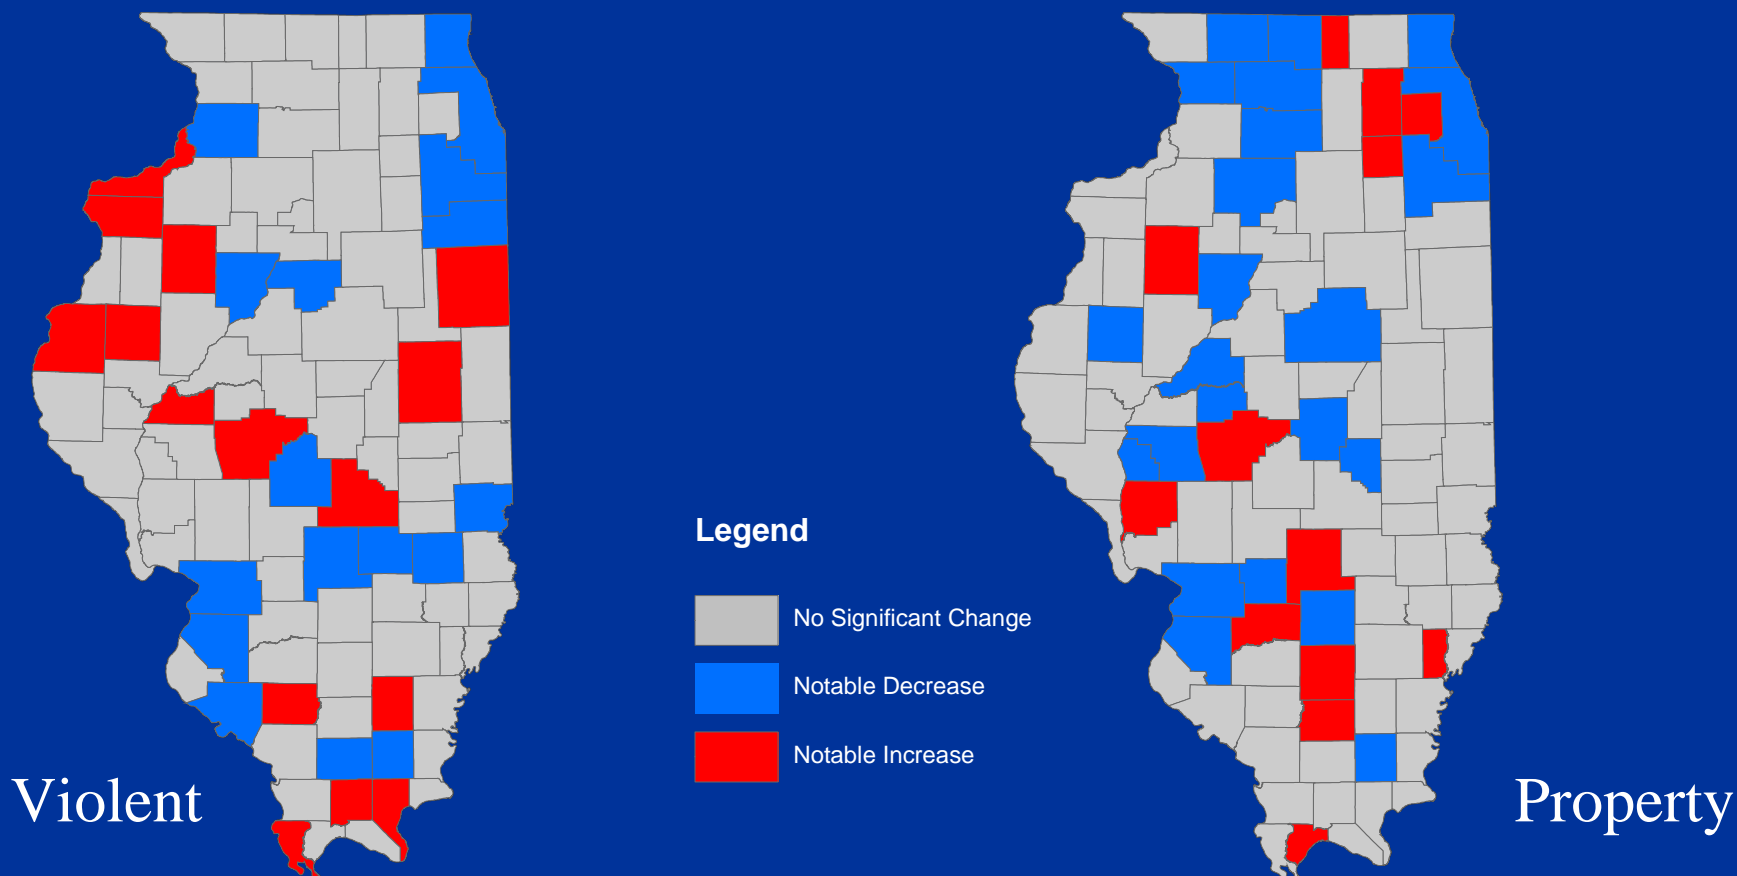

Trends in Statewide Index Arrest Rates

- Similar to reported crime, arrests by law enforcement has continued a gradual decline in Illinois;
- In 2004, Cook County accounted for the majority (51%) of reported statewide arrests.

Trends in Violent and Property Index Arrest Rates, 1999-2004

Trends in Illinois Elder Abuse and Neglect Rates

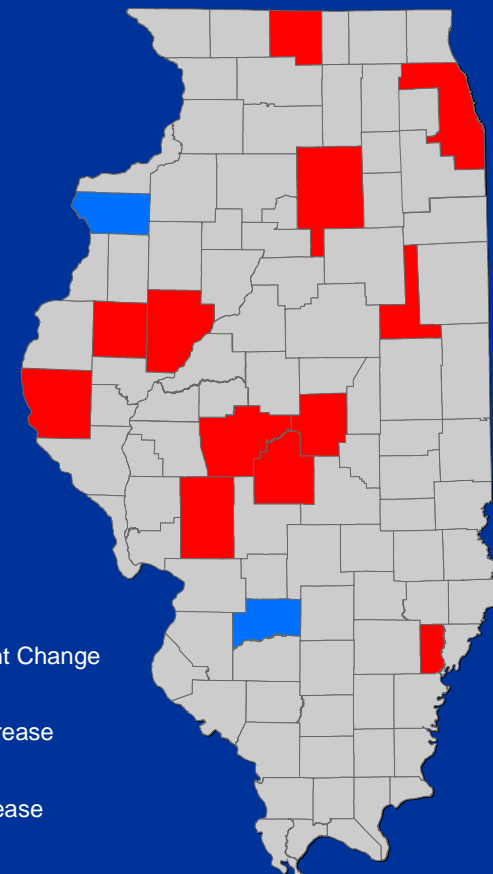

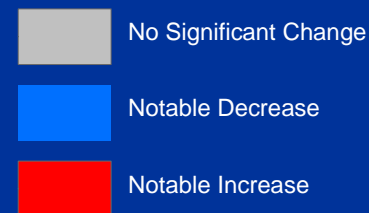

- While overall Index crime has been on the decline in Illinois, reported cases of elder abuse/neglect have increased 17% statewide between 1999 and 2004, from 7,157 to 8,359 cases (while more than doubling since 1993);
- Nearly half of the alleged abusers were children of the elder victim.

Trends in Elder Abuse and Neglect Rates, 1999-2004

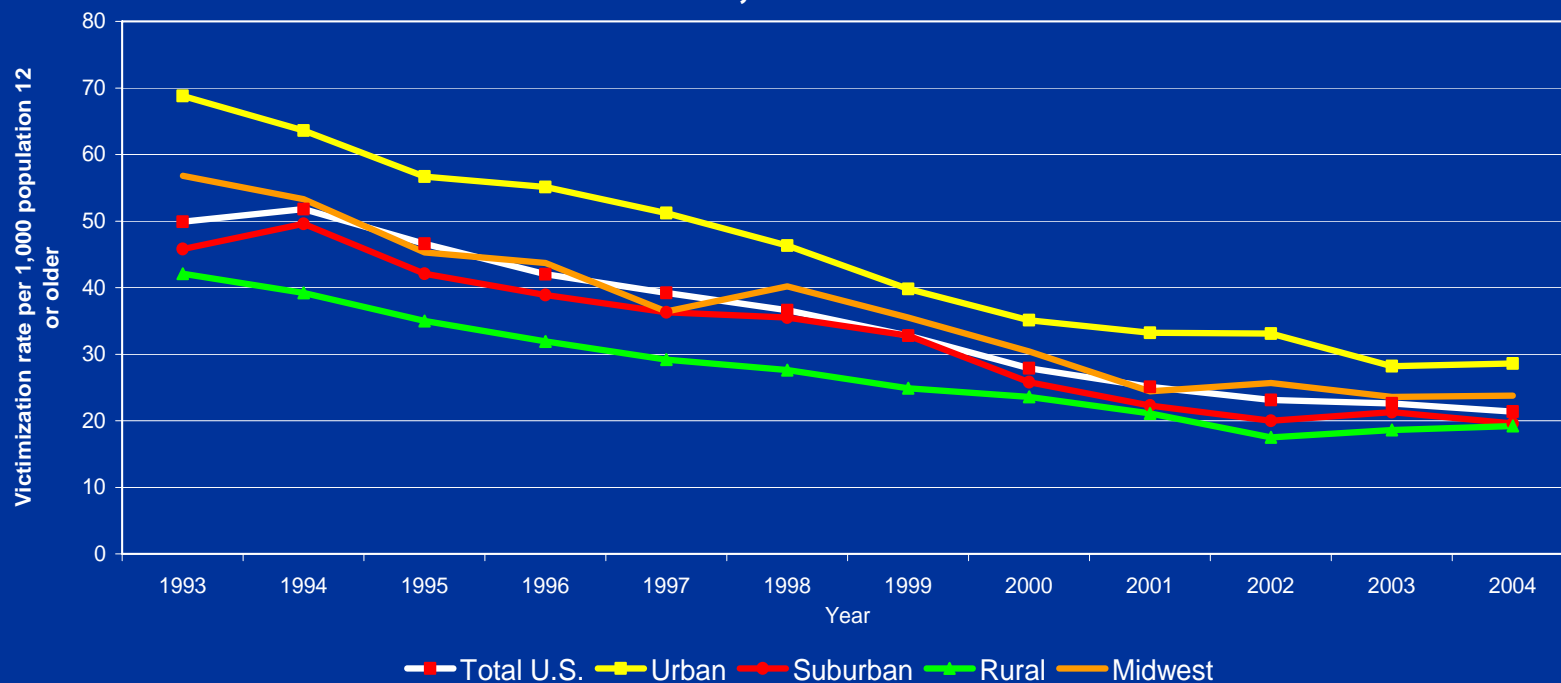

- Between 1999 and 2004, of those 14 counties, rural and urban counties accounted for half that experienced increases and decreases;
- Rural and urban counties had rates 38% and 43% higher than the statewide rate of 426 cases per 100,000 population.
- The rural county rate of 588 cases per 100,000 population was second only to the rate of 611 cases per 100,000 population in the urban counties.

Trends in Illinois Drug Arrest Rates

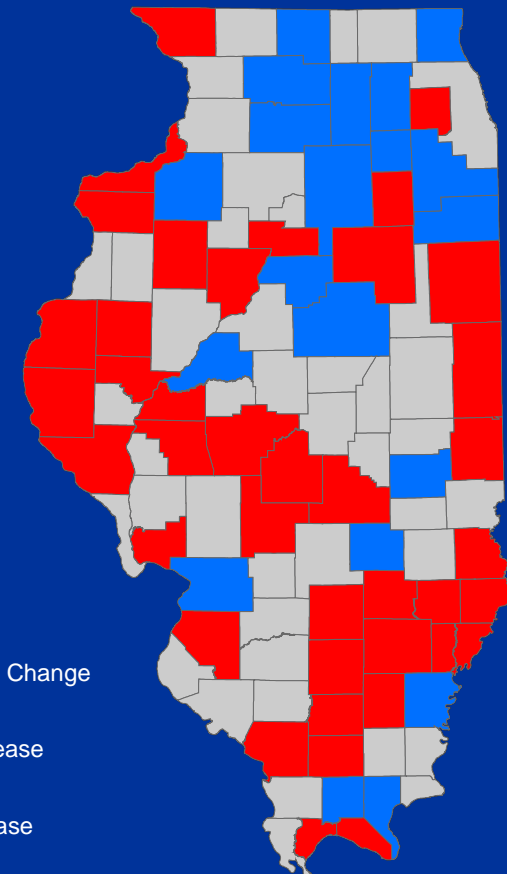

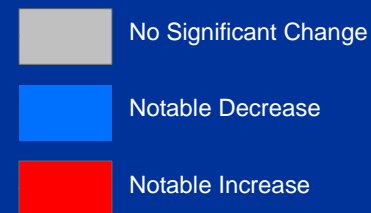

- Despite dropping 2% between 1999 and 2004, Illinois' drug arrest rate (880 per 100,000 population) was 57% higher than the national rate (564 per 100,000 population);
- In 2004, Cook County accounted for the majority (63%) of reported statewide drug arrests.

Trends in Illinois Drug Arrest Rates

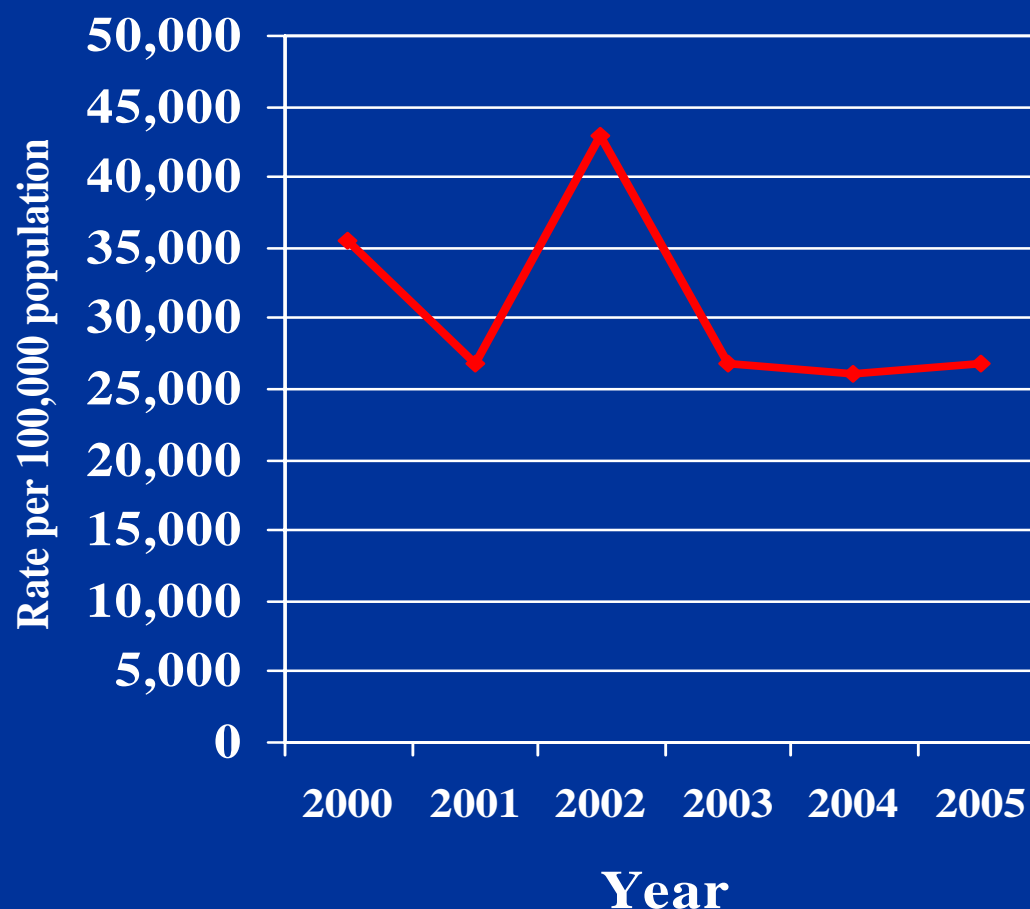

- Between 1999 and 2004, 30 of the 39 counties that experienced notable increases in their drug arrest rates were rural;
- Rural counties had the highest drug arrest rate (660 arrests per 100,000 population) second only to Cook County (1,325 arrests per 100,000 population).

Legend

Trends in Illinois Drug Seizure Rates

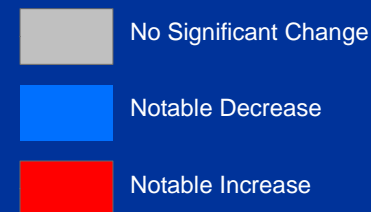

- Between 1994 and 2005, the rate of total drugs seized in Illinois increased 34%, but decreased 23% from 2000-2005;
- In 2005, Cook County accounted for the largest proportion (43%) of drugs seized statewide, despite experiencing a decrease of 42% in its seizure rate;
- Between 2000 and 2005 in Cook County, the rate of heroin seizures increased 47 percent but increased 81 percent in Chicago.

Trends in Illinois Drug Seizure Rates

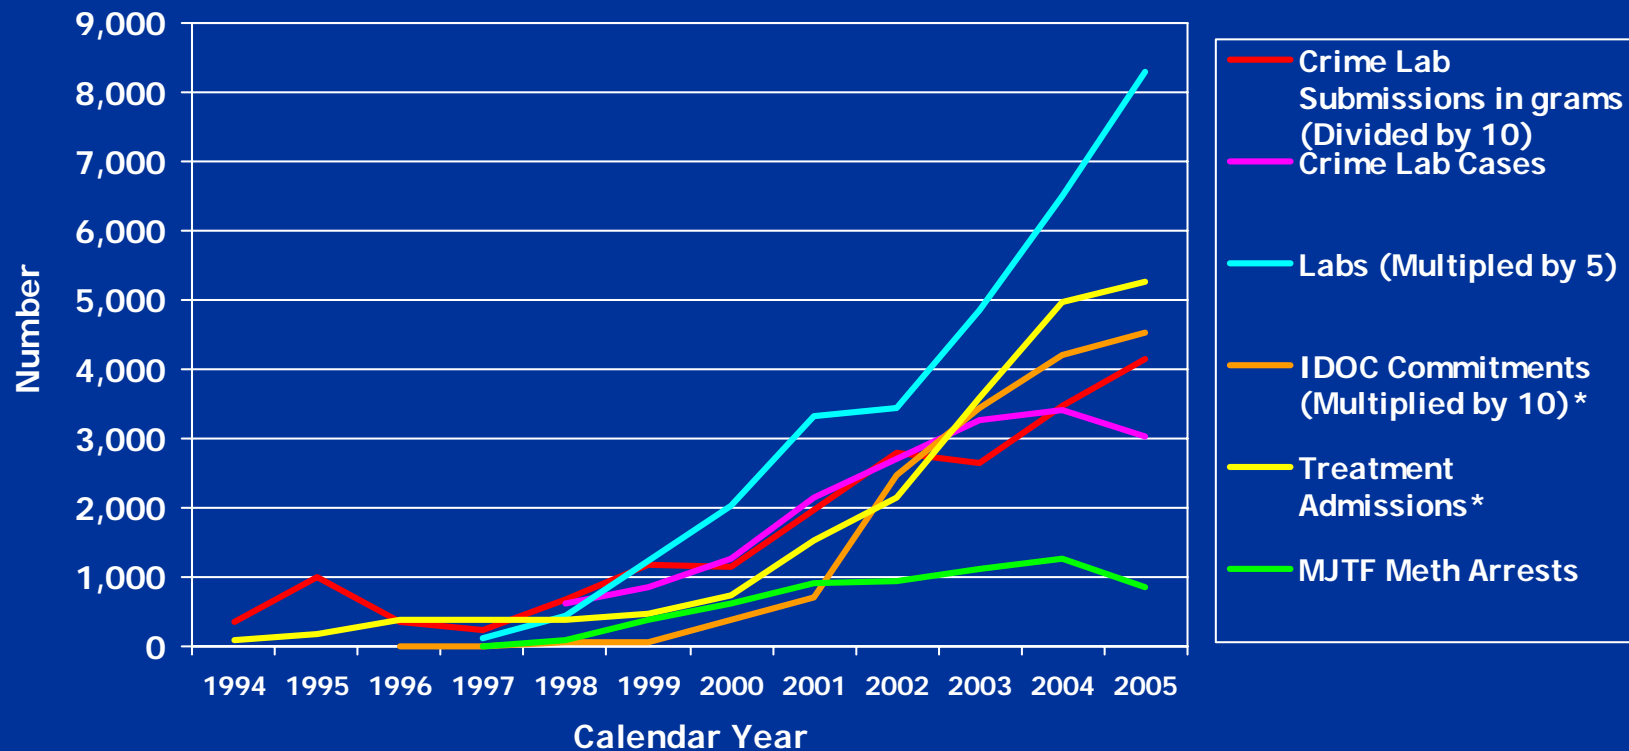

- Between 2000 and 2005, 41 of the 58 counties that experienced notable increases in their drug seizure rates were rural;
- Rural counties had the highest drug seizure rate second only to Cook County.

Legend

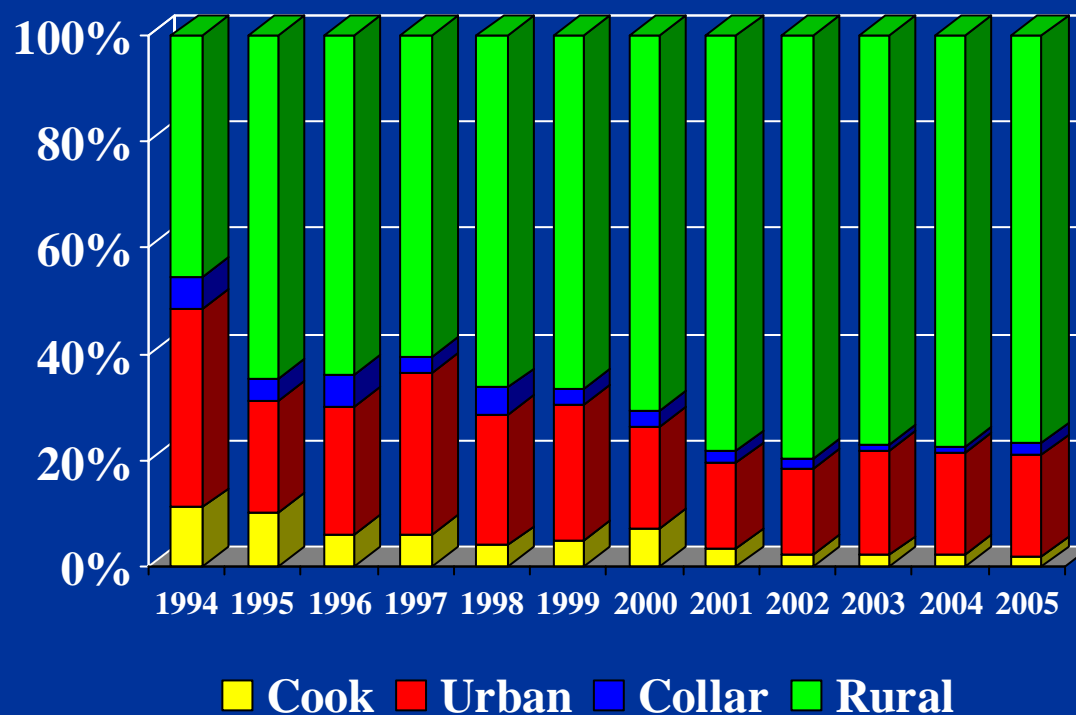

Methamphetamine Trends

Measures of Methamphetamine Activity in Illinois

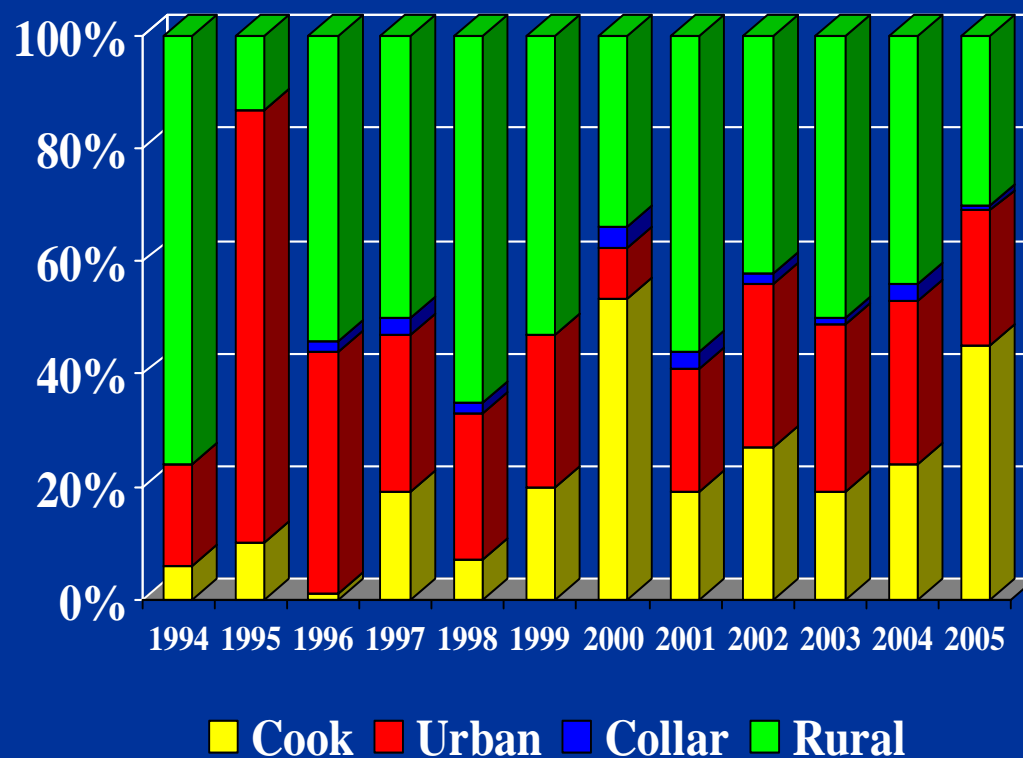

Proportion of Meth Submissions (Cases) to ISP Crime Labs, by Region

- Between 2000 and 2005, the number of methamphetamine *cases* submitted to ISP crime labs more than doubled statewide as well across Illinois' urban, collar, and rural regions.
- The number of methamphetamine submissions increased nearly five-fold in Cook County. As a result, the proportion of statewide methamphetamine submissions accounted for by Cook County increased from 5 to 13 percent.

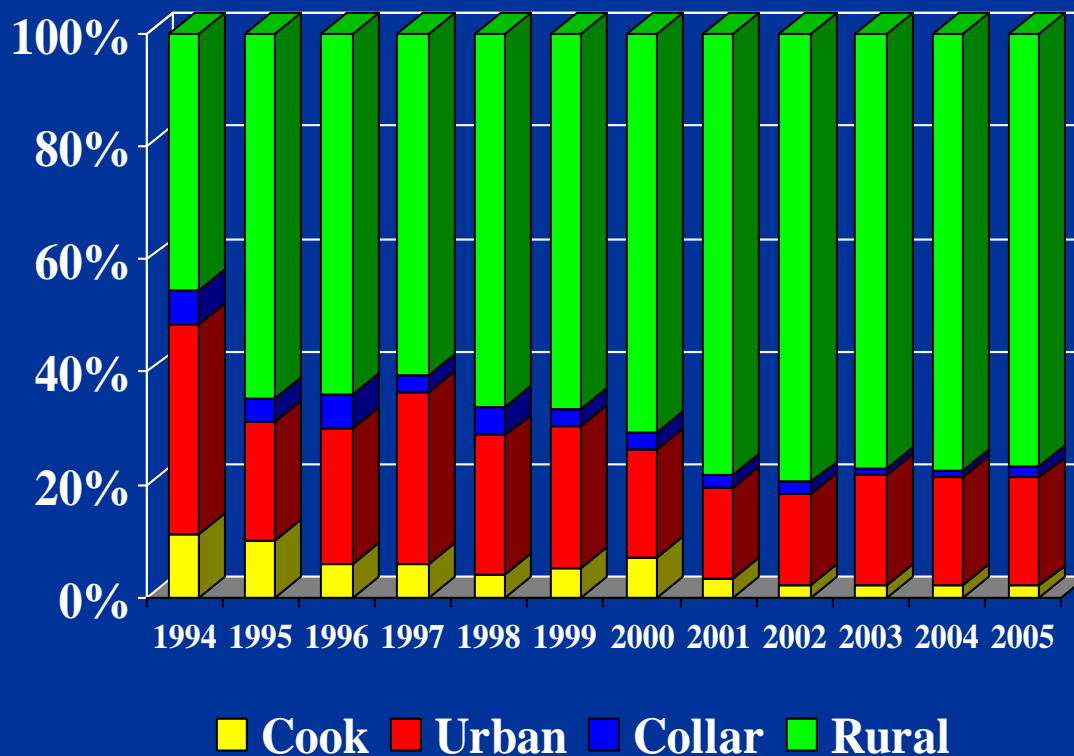

Proportion of Meth Seizures (in Grams) to ISP Crime Labs, by Region

- Between 2000 and 2005, the *quantity* of methamphetamine seized and submitted to ISP crime labs nearly quadrupled statewide.;
- More notable is the quantity methamphetamine seized increased nearly nine-fold in Illinois' more urban counties. As a result, since 2000, the proportion of statewide methamphetamine seized in Cook County increased from 19 to 45 percent.

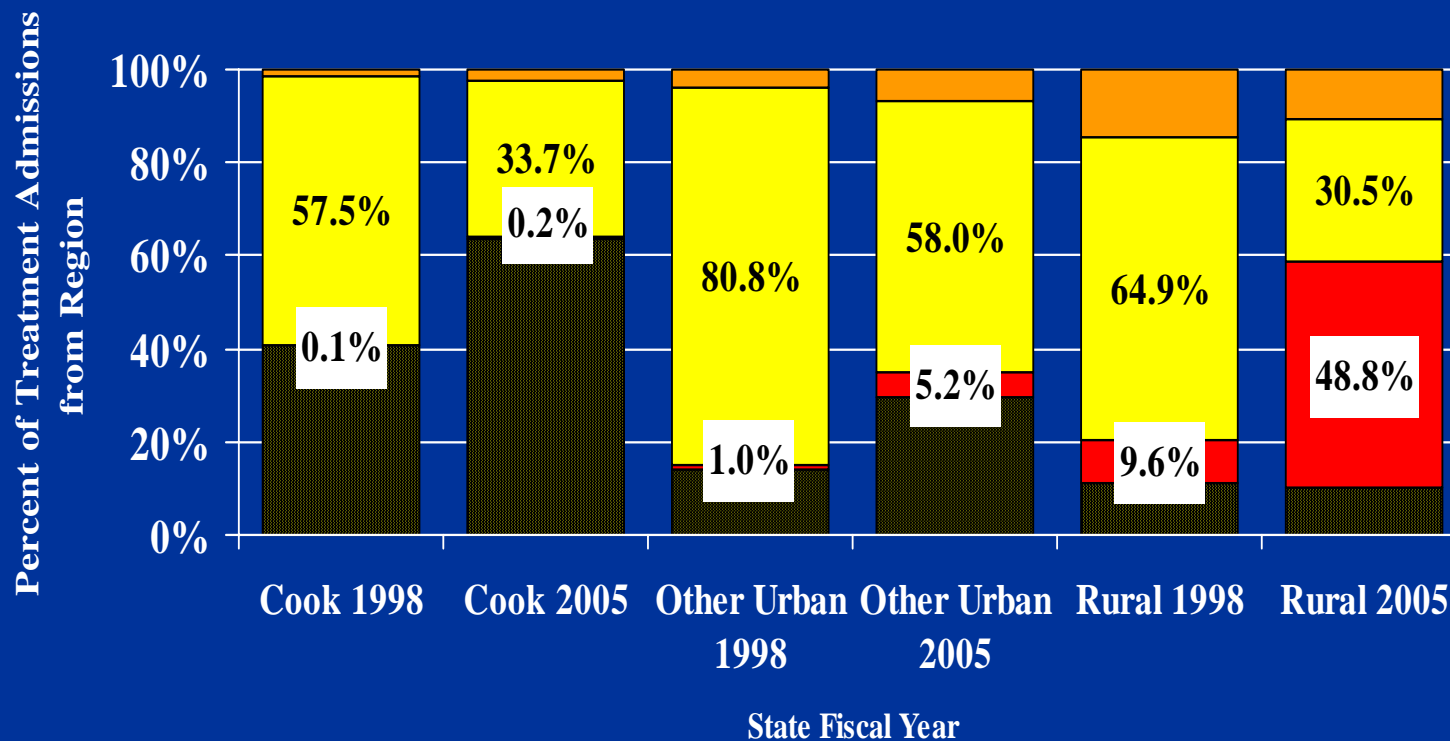

Proportion of Meth Treatment Admissions, by Region

- Between 2000 and 2005, the number of treatment admissions for methamphetamine abuse increased more than six-fold statewide, from 740 to 5,252;
- While methamphetamine distribution and trafficking indicators reflect increased meth activity in Cook County, the majority of individuals seeking treatment for methamphetamine abuse continue to be from rural counties, increasing from 70-76% between 2000 and 2005.

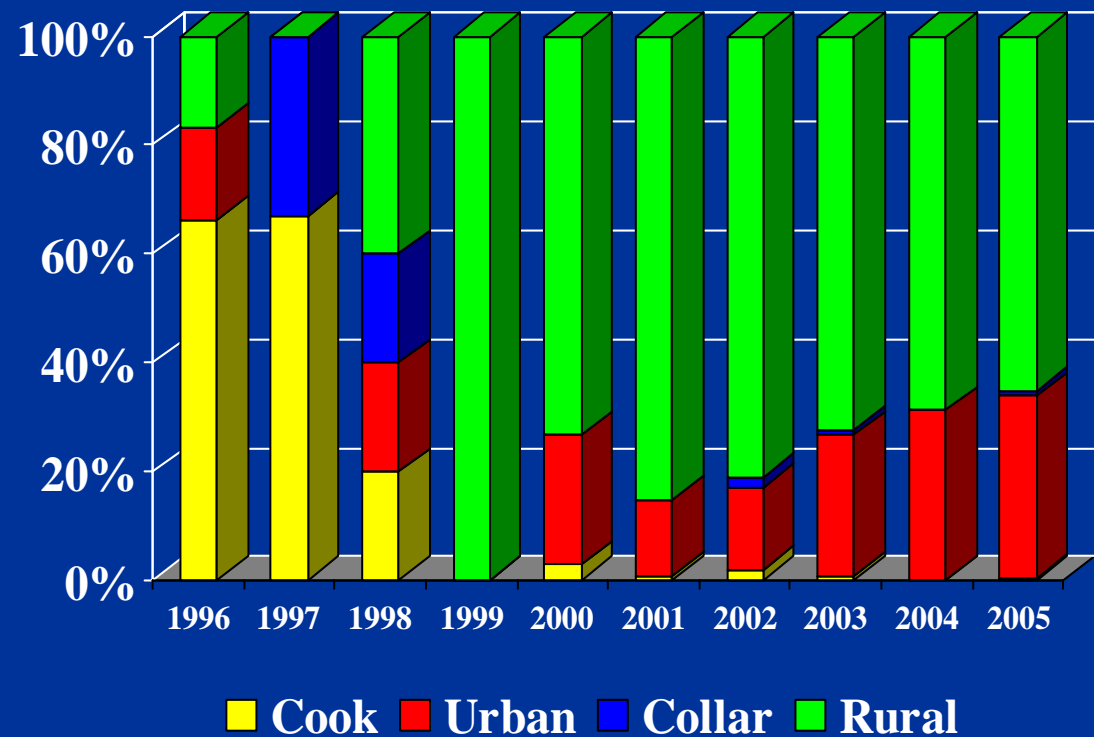

Distribution of Controlled Substances Act Treatment Admissions, by Region, 2005

■ Heroin ■ Meth ■ Cocaine ■ Other

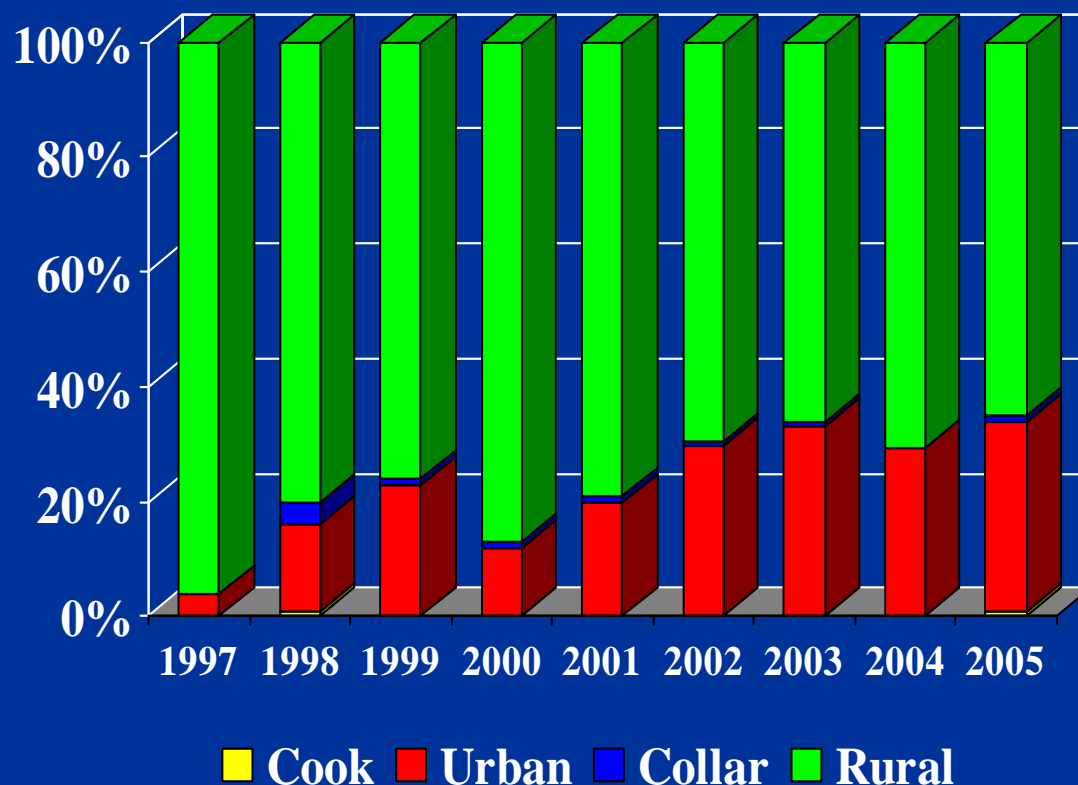

Proportion of IDOC Commitments Accounted for by Meth, by Region

- Between 2000 and 2005, the number of individuals committed to the Illinois Department of Corrections for serious meth-related offenses increased more than ten-fold, from 38 to 454;
- The number of meth-related commitments from urban counties outside Cook County increased nearly 16-fold, from nine to 156. As a result, the proportion accounted for by Illinois' urban counties increased from 26 to 35 percent.

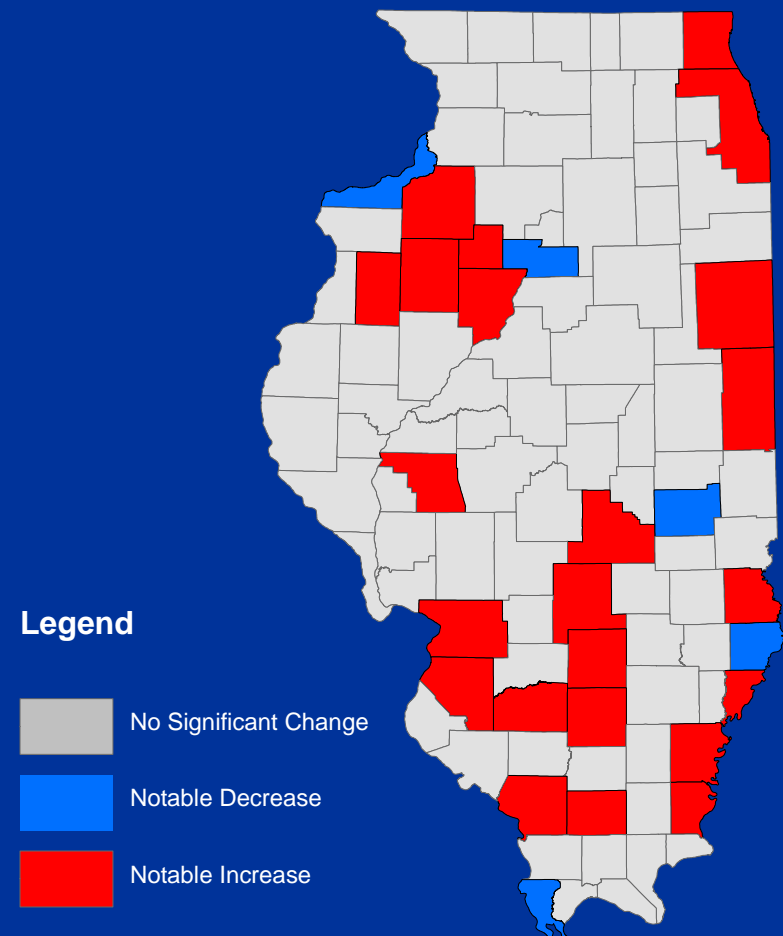

Proportion of Meth Lab Seizures, by Region

- Between 2000 and 2005, the number of meth labs seized in Illinois more than doubled, from 487 to 1,189;
- While the number of meth labs seized in rural counties nearly doubled, meth labs seized in urban counties outside Cook County increased nearly six-fold, from 59 to 393. As a result, the proportion of statewide meth lab seizures accounted for by Illinois' urban counties increased from 13 to 35 percent.

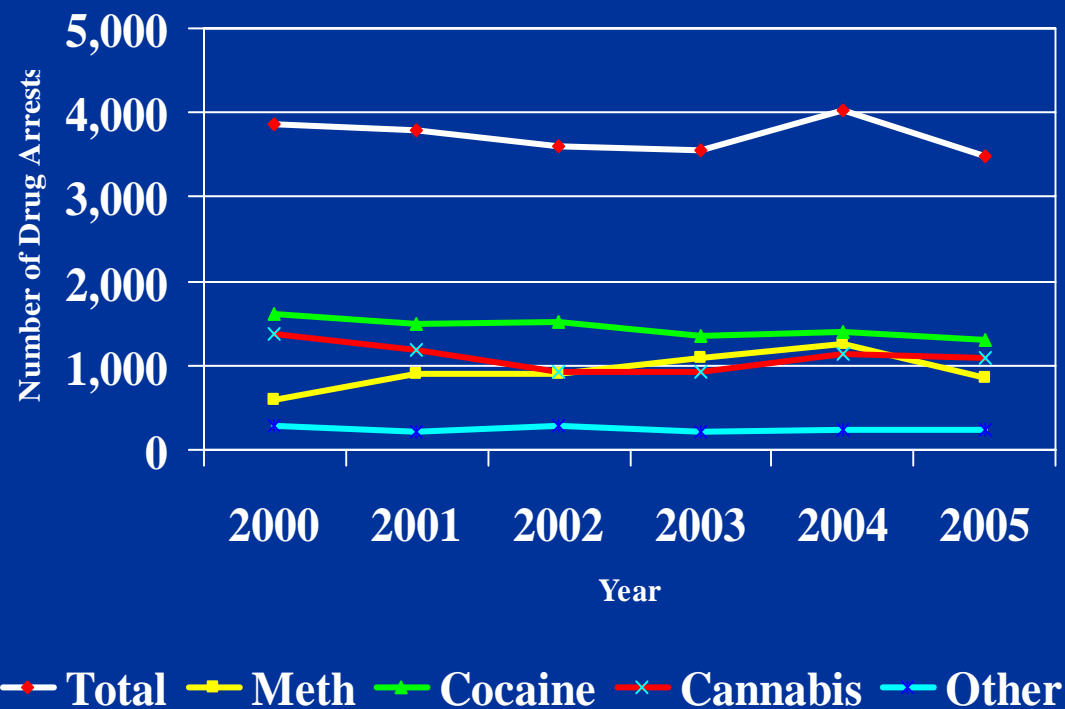

Trends in Meth Lab Seizures in Illinois

- Between 2000 and 2005, 15 of the 23 counties experiencing a notable increase in their methamphetamine lab seizure rate were rural;
- Despite the fact that meth manufacturing has spread into more diverse regions of the state, the problem has not diminished in the predominantly rural regions of southern Illinois, where it is noted here that the problem continues to worsen.

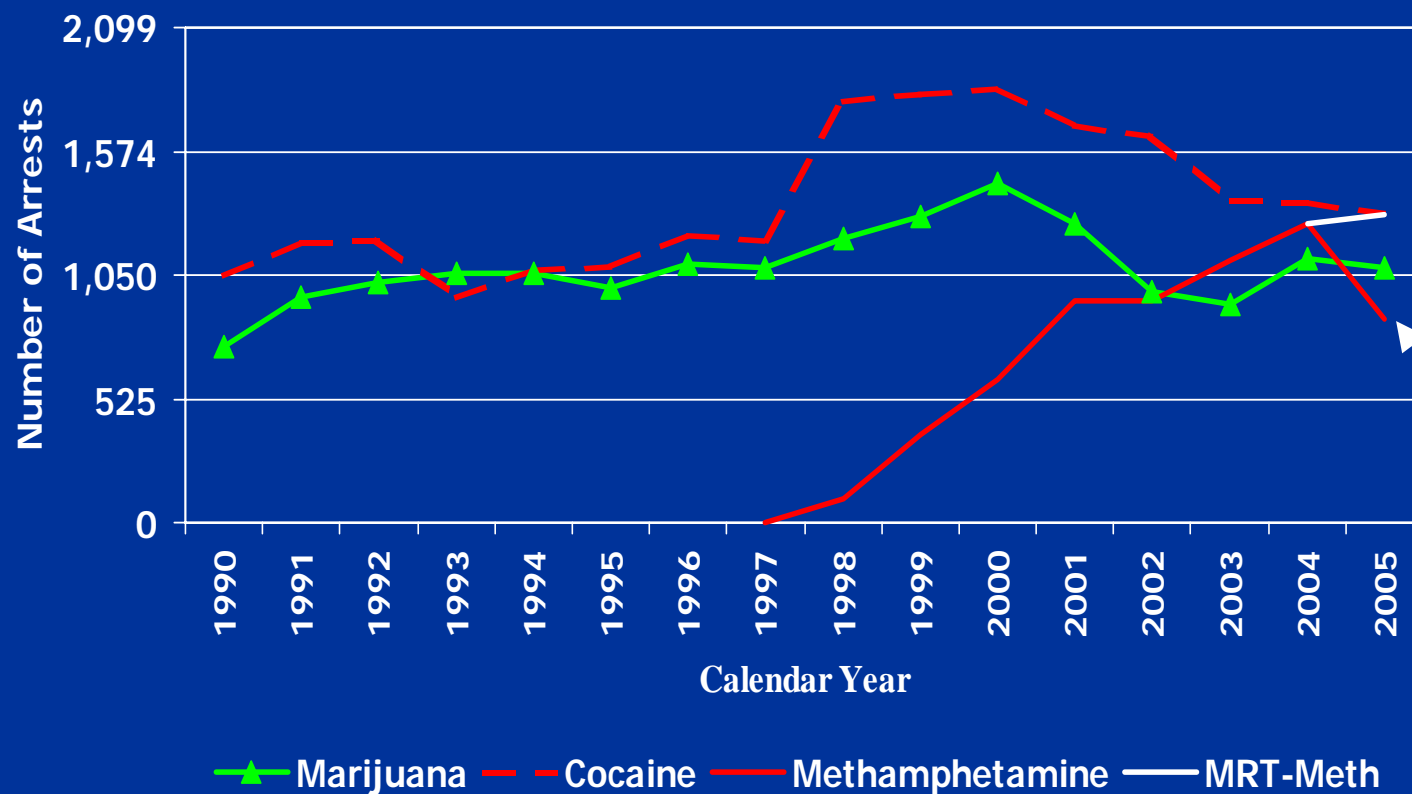

MEG and Task Force Drug Arrests, by Drug Type

- Between 2000 and 2005, the number of drug arrests made by Illinois' MEGs and Task Forces decreased 9 percent, from 3,855 to 3,489;
- Meth has had a profound impact on drug enforcement activities of many MEGs and Task Forces. Between 2000 and 2004, the number of arrests decreased across all drug types examined, except methamphetamine.

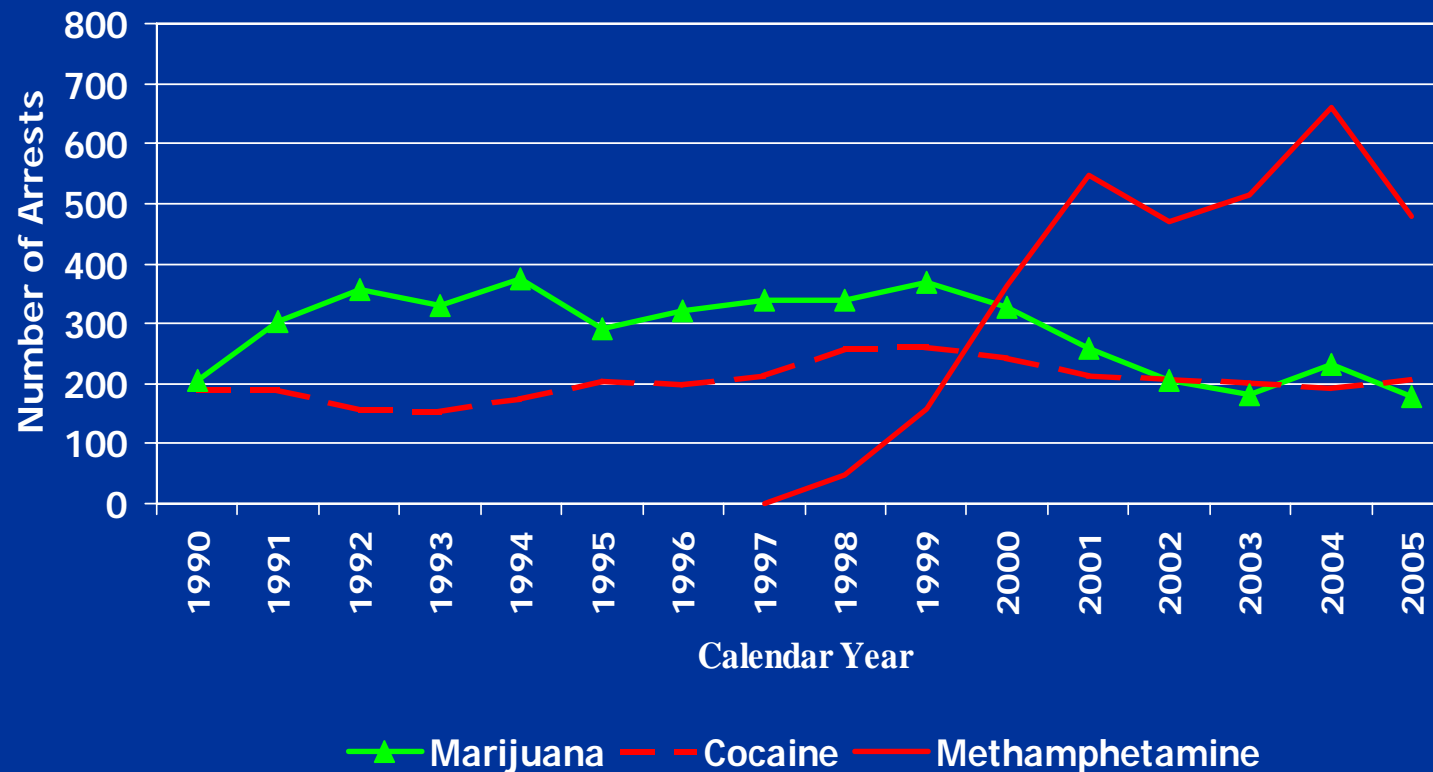

Arrests by Illinois' MEGs and Task Forces, by Drug Type

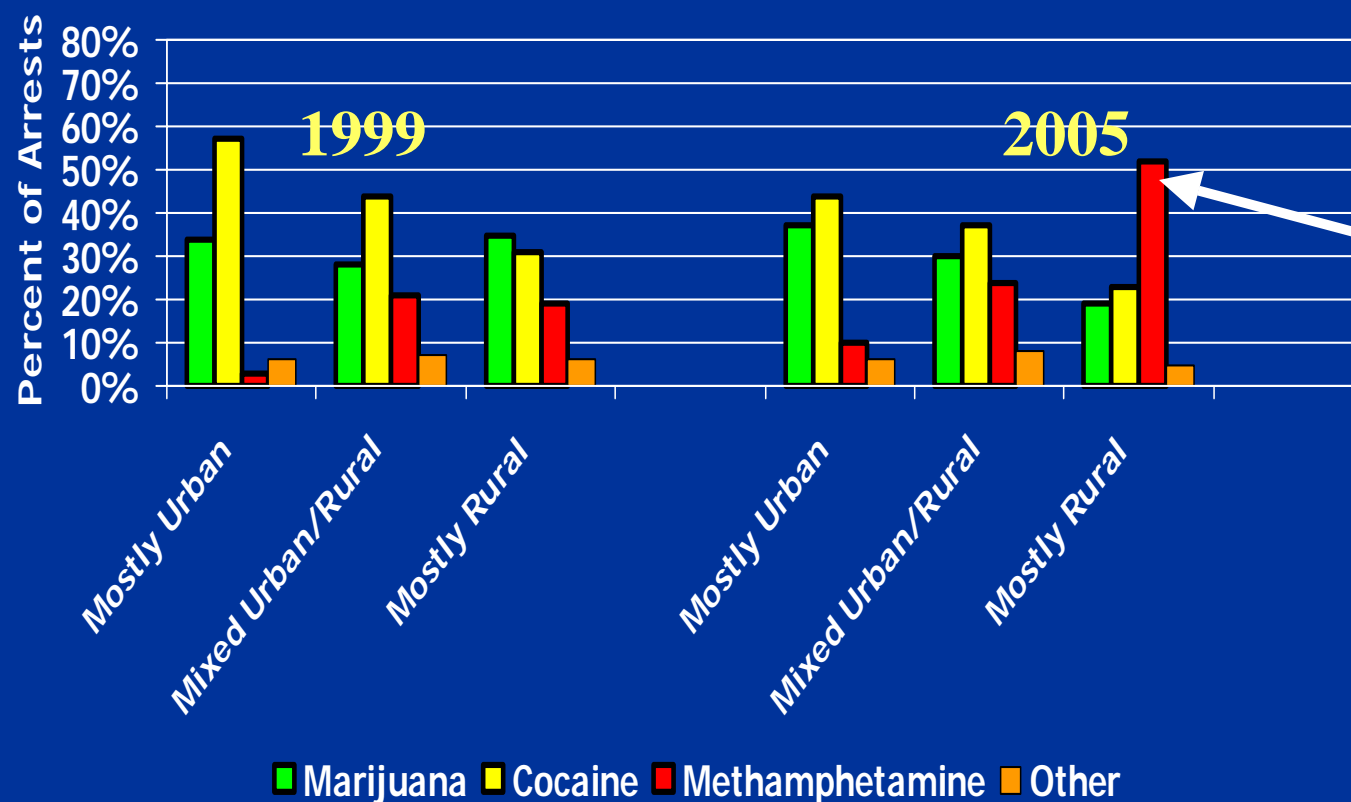

Meth Arrests accounted for 24 percent of all drug arrests made by MEG/TFs in 2005, compared to 34 percent in 2004

Arrests by Mostly-Rural MEGs and Task Forces, by Drug Type

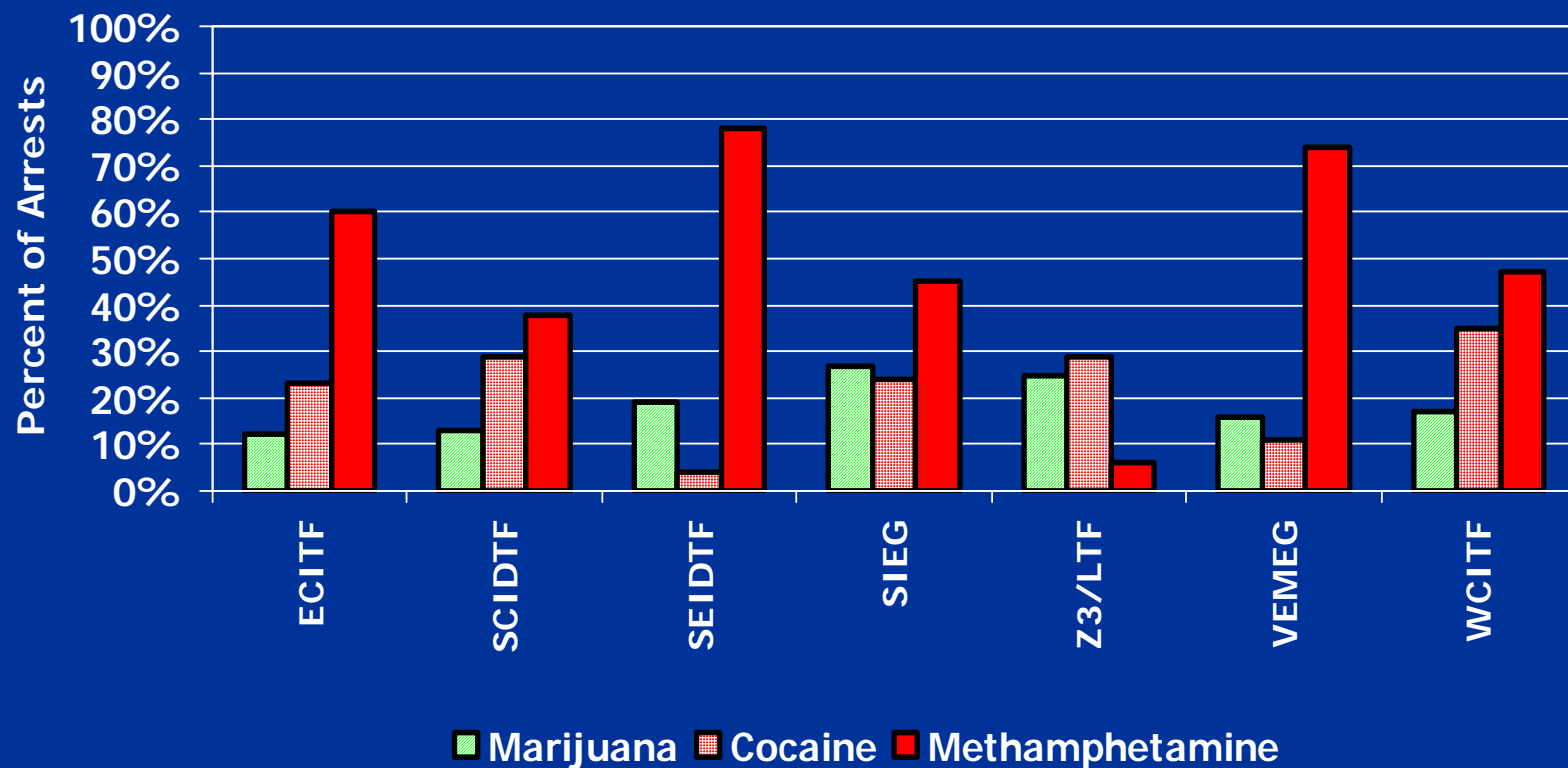

Proportion of Arrests by Illinois' MEGs and Task Forces, by Drug Type

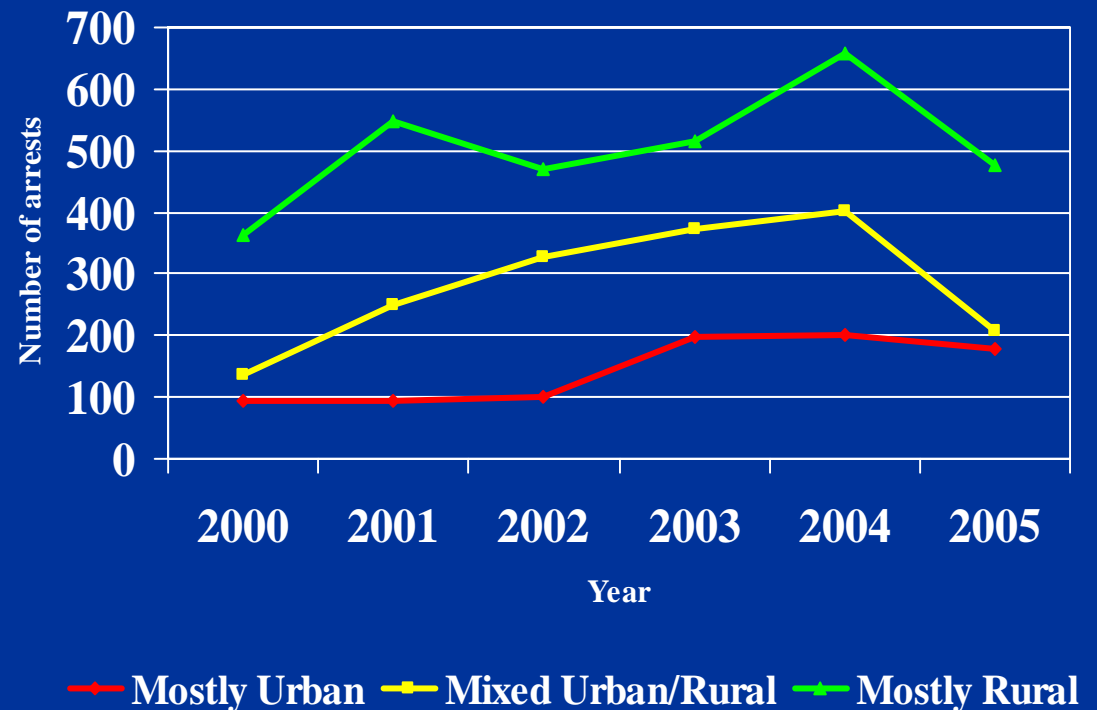

Meth Arrests accounted for 52% of all drug arrests made by Mostly Rural MEG/TFs in 2005, down from 58% in 2004

Arrests by Individual Mostly-Rural MEGs and Task Forces, by Drug Type, 2005

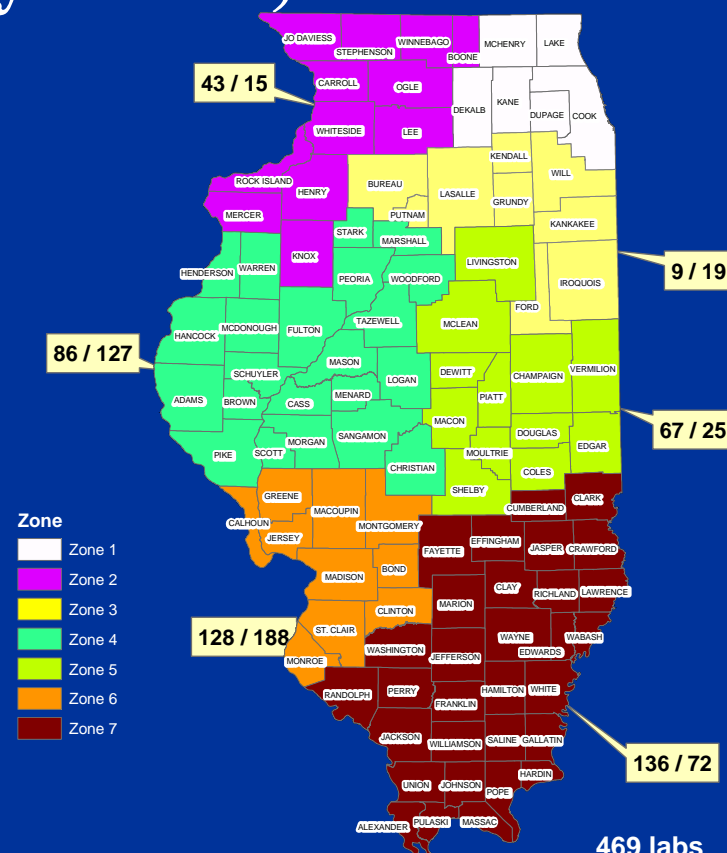

MEG and Task Force Meth Arrests, by Unit Type

- The number of meth arrests made by all MEGs and Task Forces increased significantly between 2000 and 2004, from 593 to 1,264;
- However, between 2004 and 2005, there was a steep decrease in the number of meth arrests (863).

Illinois State Police Meth Response Team (MRT) Activities, by Zone, 2005*

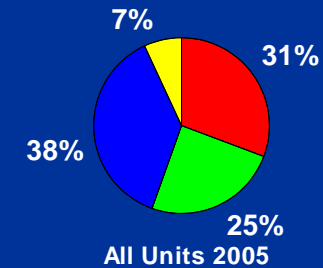

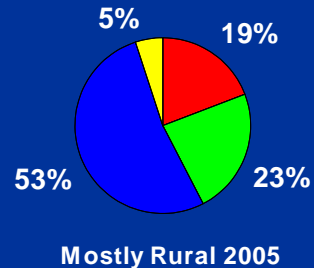

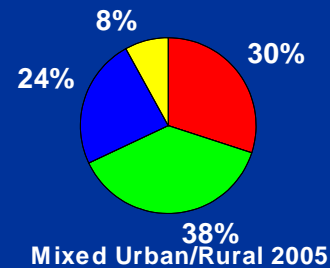

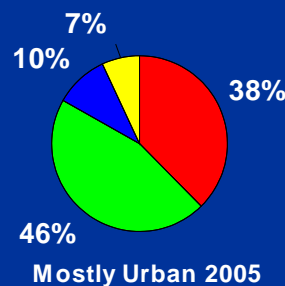

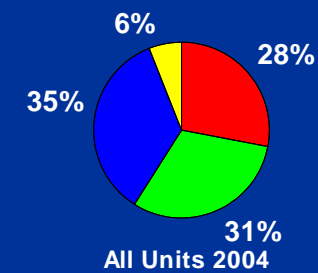

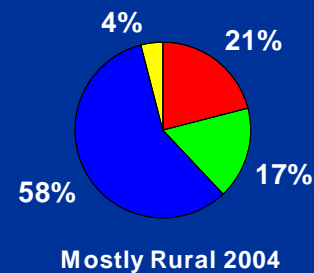

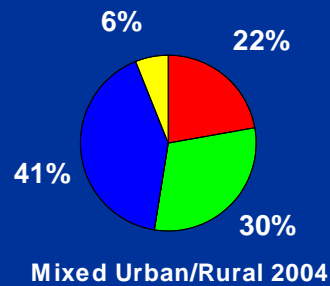

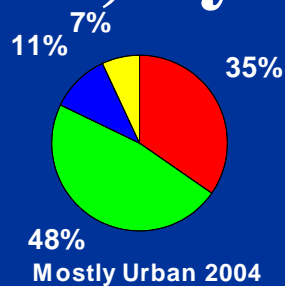

- MRT implemented in May 2005. During that time, the team made 446 meth arrests and seized 469 meth labs;
- When combined with MEG/TF meth arrests, there were 1,309 ISP meth arrests in 2005, an increase of 4% from 2004.

*MRT began operations in May 2005

Trends in Illinois Felony Filing Rates

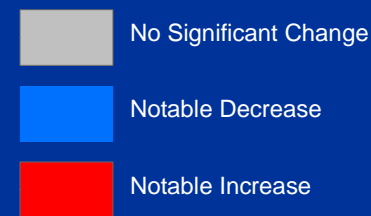

- Between 1999 and 2004, the statewide rate of felony cases filed in criminal court increased 7 percent, from 692 to 742 felony cases filed per 100,000 population;
- In 2004, Cook County accounted for 42 percent of felony cases filed in criminal court in Illinois.

Trends in Illinois Felony Filing Rates

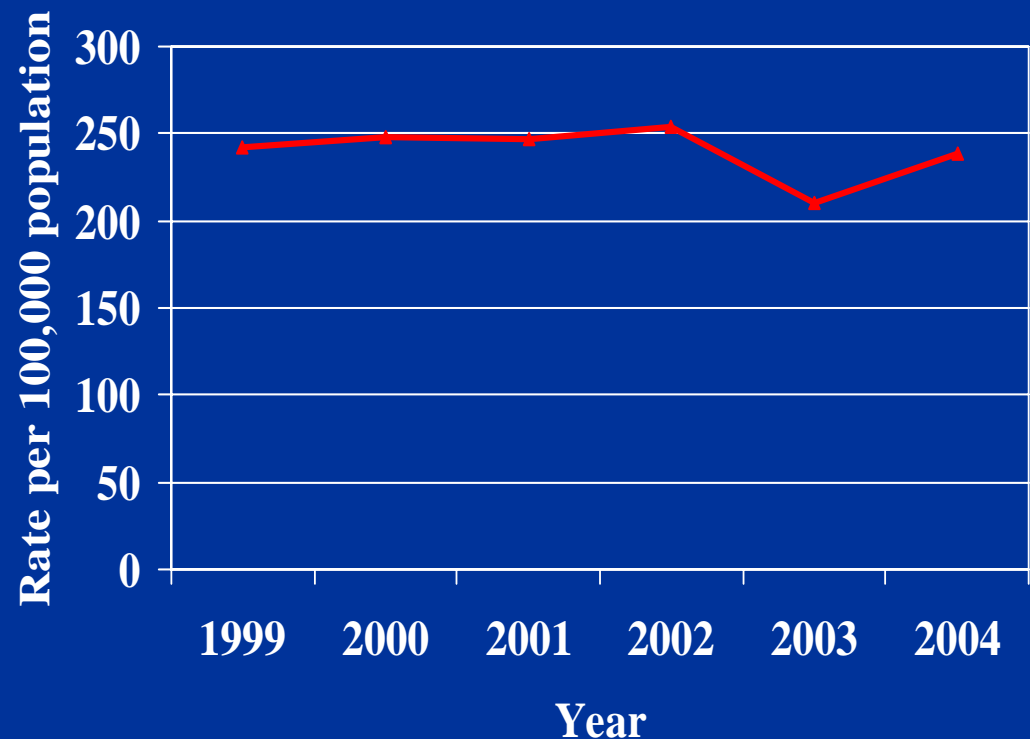

- Between 1999 and 2004, 30 of the 39 counties that experienced notable increases in their felony filing rates were rural;
- Rural counties experienced the largest rate increase (25%) and their rate of 909 filings per 100,000 population was second only to the urban rate of 933 filings per 100,000 population .

Legend

Trends in Illinois Felony Sentences to Probation Rates

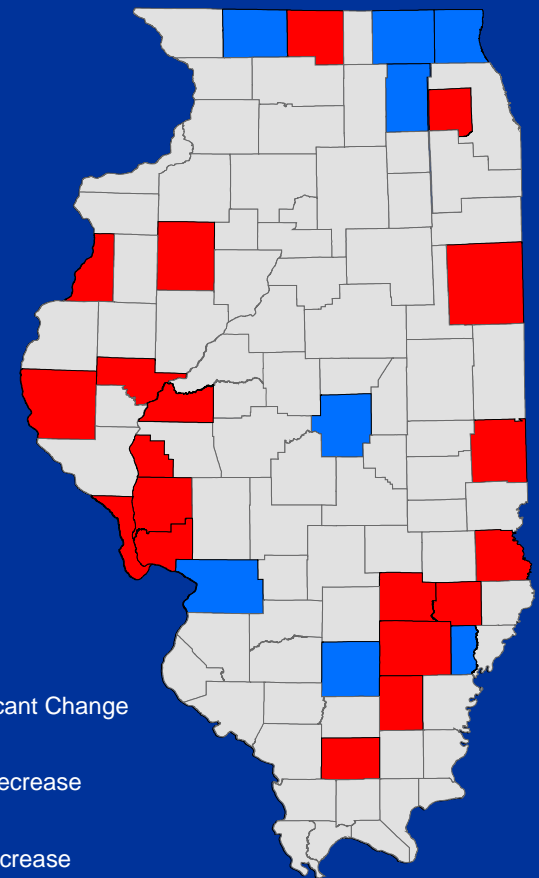

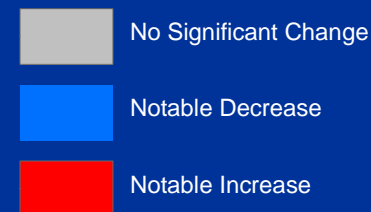

- Between 1999 and 2004, the statewide rate of felony sentences to probation decreased 1 percent, from 242 to 238 sentences per 100,000 population;
- In 2004, Cook County accounted for 47 percent of felony cases sentenced to probation in Illinois.

Trends in Illinois Felony Sentences to Probation Rates

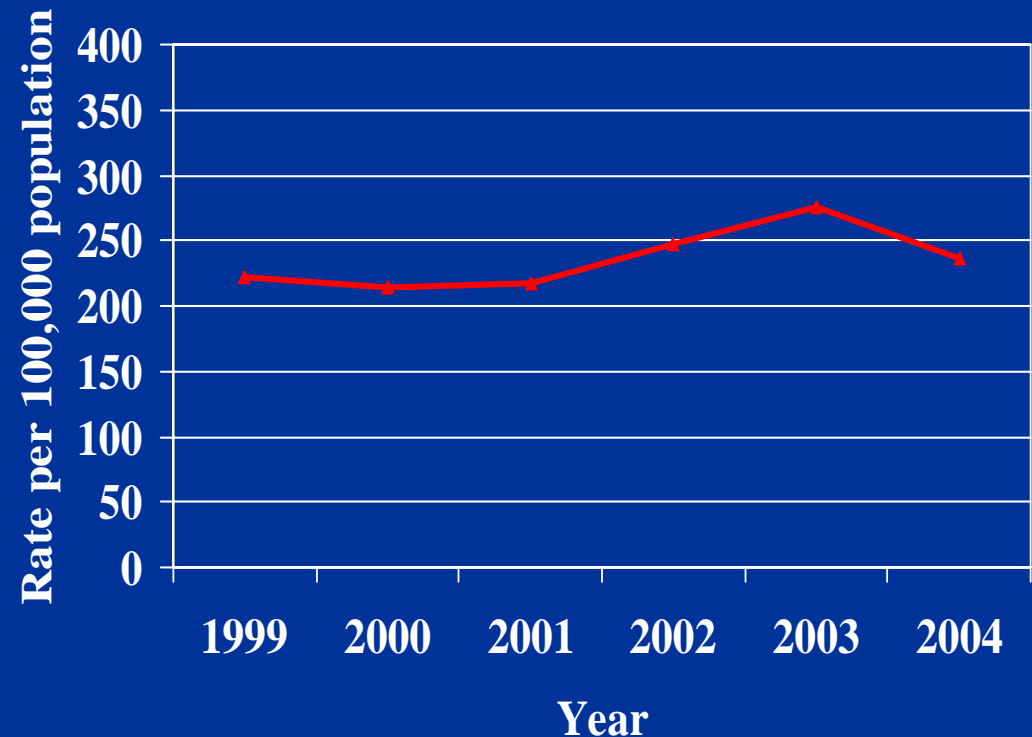

- Between 1999 and 2004, 14 of the 19 counties that experienced notable increases in their felony probation sentence rates were rural;
- Rural counties experienced the largest rate increase (17%) and their rate of 267 felony probation sentences per 100,000 population was second only to the urban rate of 298 probation sentences per 100,000 population .

Legend

Trends in Illinois Felony Sentences to Prison Rates

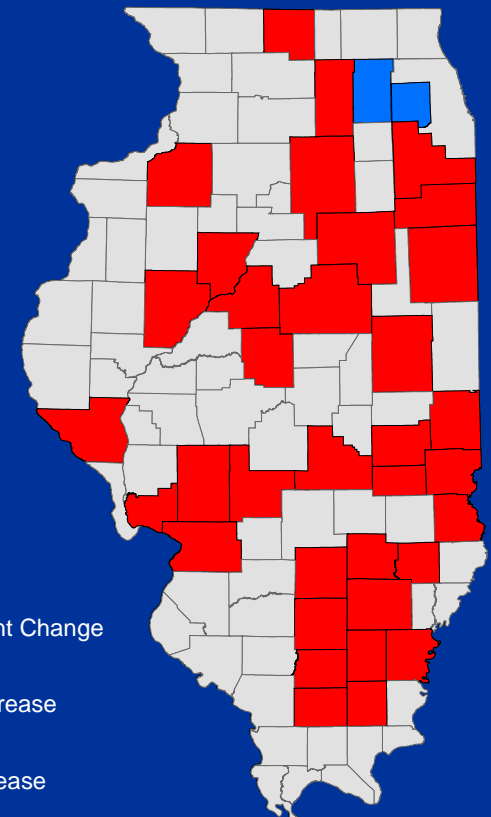

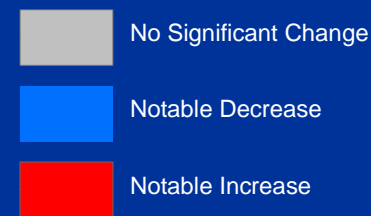

- Between 1999 and 2004, the statewide rate of felony cases sentenced to prison increased 7 percent, from 222 to 237 prison sentences per 100,000 population;
- In 2004, Cook County accounted for 56 percent of all felons sentenced to prison in Illinois.

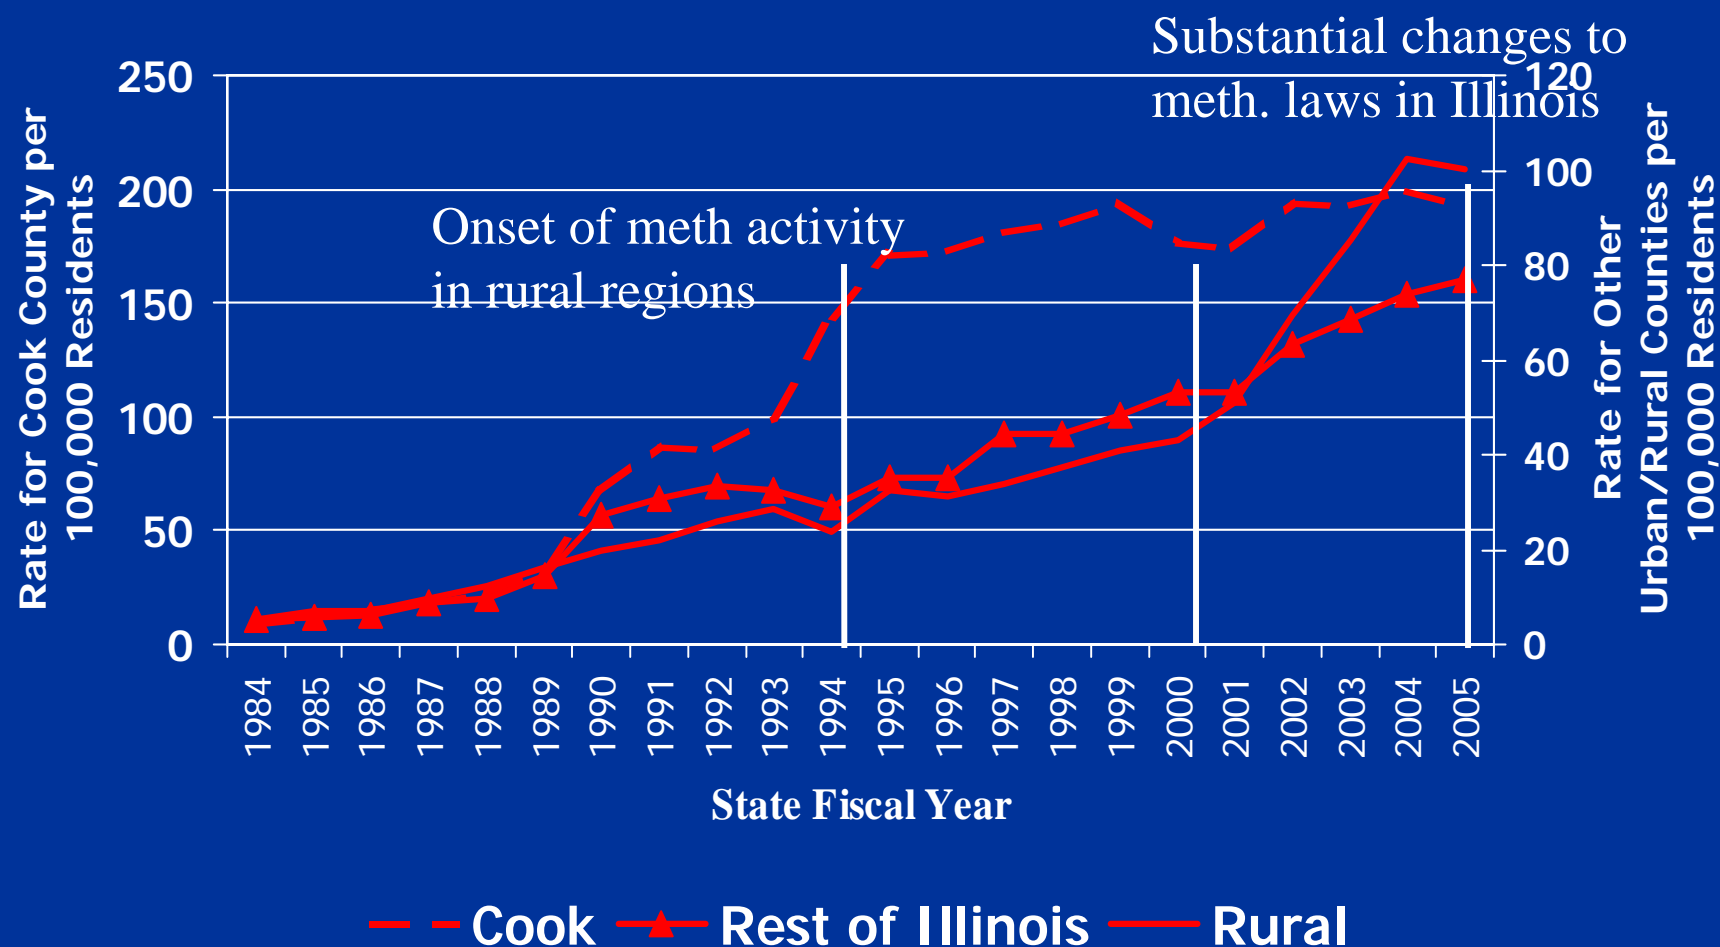

Trends in Illinois Felony Sentences to Prison Rates

- Between 1999 and 2004, 24 of the 35 counties that experienced notable increases in their felony prison sentence rates were rural;
- Rural counties experienced the largest rate increase (68%) and their rate of 243 prison sentences per 100,000 population was second only to Cook County's rate of 314 prison sentences per 100,000 population .

Results from the 2005 Criminal Justice System Needs Assessment

Presented to the
Justice Assistance Grant
Planning Committee

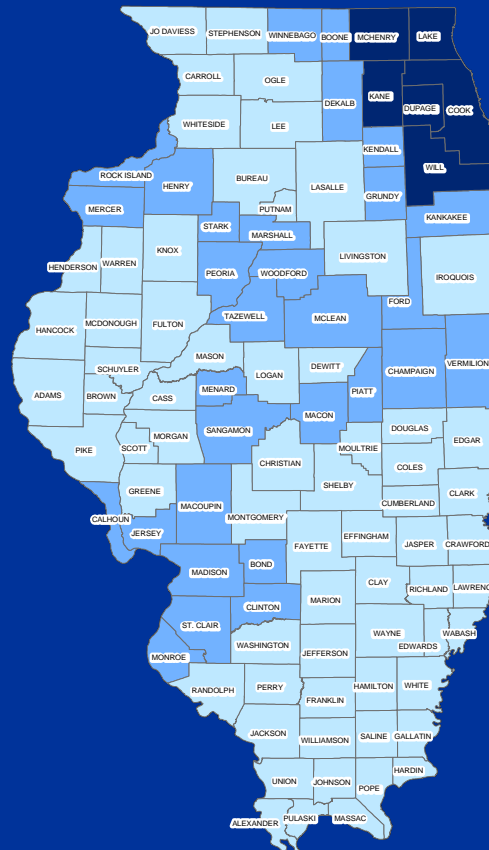

Criminal Justice Needs Assessment

- A replication of a needs assessment done by ICJIA in the early 1990's
- Captures data on the needs of CJS professionals regionally and statewide

The regions

Legend

-  Cook/Collar Counties
-  Other Urban Counties
-  Rural Counties

Who were surveyed?

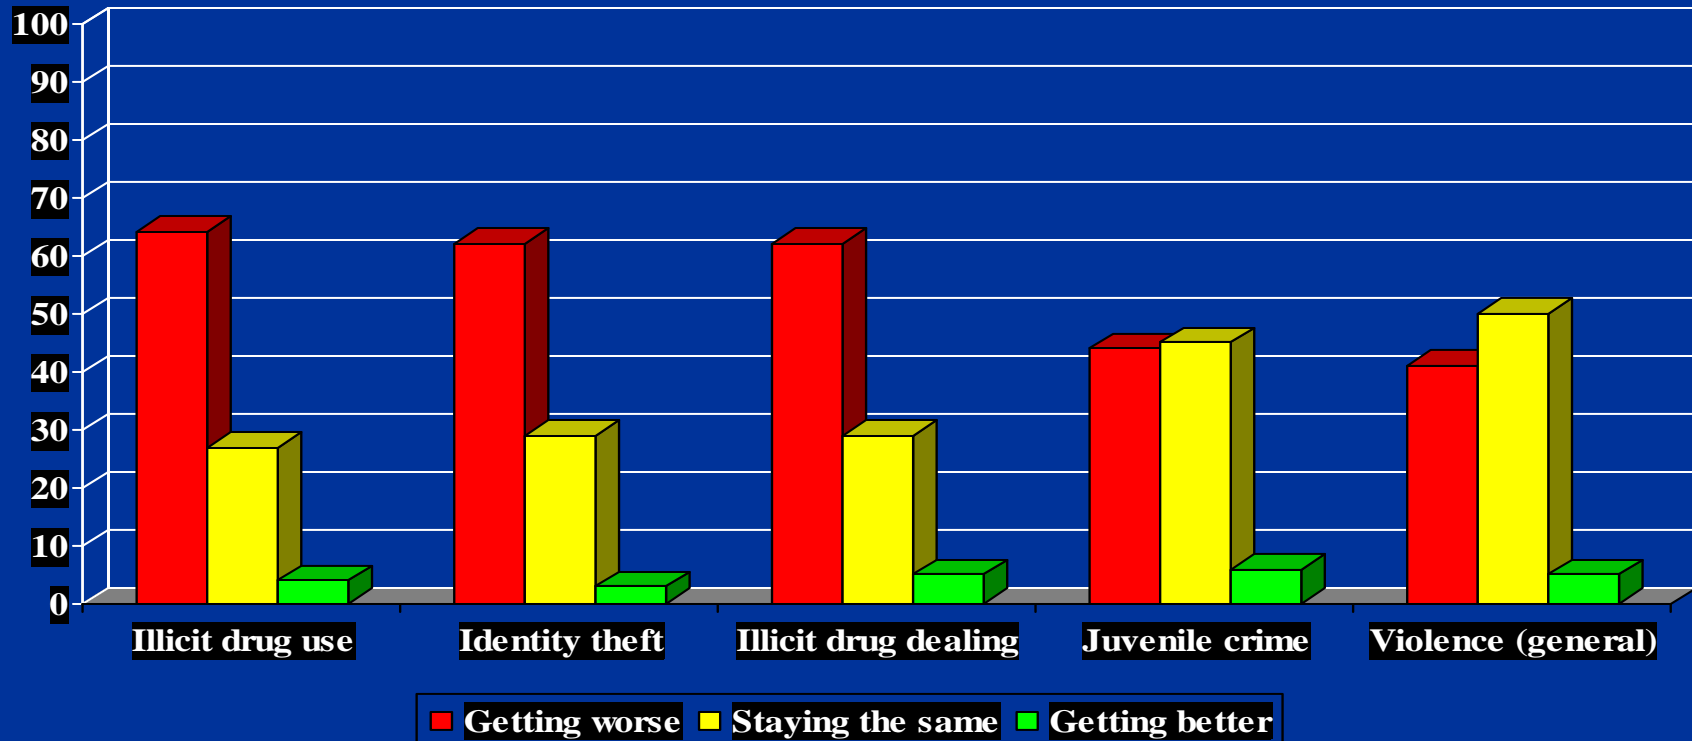

- Police Chiefs (n=334)
- State's Attorneys (n=47)
- Public Defenders (n=42)
- Chief Judges (n=5)
- Probation (n=61)
- Circuit Court Clerks (n=51)
- Detention Center Administrators (n=11)
- Victim Service Administrators (n=58)

Survey Topics

- Workload Issues
- Staffing Issues
- Training Issues
- Services and Program Needs
- Information System Needs
- Perceptions of Crime
- Collaborations with Other CJ Agencies

Summary

- Workload demands
 - Domestic violence was ranked in the top 5 workload contributors by Judges, Public Defenders, Police Chiefs, State's Attorneys, and Victim Service providers
 - Drug and DUI cases were ranked in the top 5 of workload contributors by Judges, Public Defenders, and State's Attorneys

Summary (cont.)

- Programs and Services
 - Judges, Public Defenders, State's Attorneys, Probation, and Detention Centers all ranked mental health treatment in their top 5 of programs and services that needed improvement.
 - Public Defenders, State's Attorneys, Probation, and Detention Centers all ranked educational, vocational, and sex offender treatment in their top 5 programs and services that needed improvement.

Next Steps

- Final report on the needs assessment project is due this month.
- Research and Analysis staff will continue to analyze the data and publish subsequent work that digs deeper into the data.
